Soft Skill

- **Java**
- **JavaScript**
- **Power Automate**
- **Power Apps**
- **React.js**
- **Hibernate**
- **Node.js**
- **Spring Boot**

Education Background

- Bachelor's in Computer Application
Mangalore University
2016-2019
- Pre-University Education - PCMB
Karnataka State Board
2014-2016

About Me

Aspiring developer with a Skillset of Full stack technologies and various frameworks who is eager to transition into a Full-Stack developer role and ability to perform well in a team.

Professional Experience

Jspiders : Java Full Stack

05/10/2022- present

Web Technologies :

- Cutting-Edge Front-End Development: Crafted captivating and highly interactive website clones using **HTML5, CSS3, Bootstrap**, and **JavaScript** for an outstanding user experience.
- Modern JavaScript Mastery: Demonstrated expertise in **ES6+ features**, utilizing arrow functions, template literals, and destructuring to write clean and efficient code.
- Sound understanding of core JavaScript concepts, including variables, functions, and control flow, enabling efficient **DOM manipulation** and asynchronous programming.
- **React** : Demonstrated expertise in React.js, building dynamic and scalable web applications with adaptability to embrace new technologies.
- Efficient Development: Utilized React components, **life cycle methods, state management, Context API, hooks, routing**, and package managers for efficient development and high-quality results.

JAVA :

- Showcased a formidable command of core Java technologies, consistently delivering rock-solid and efficient code solutions that exceed project requirements. Leveraged advanced expertise in **Java Collection frameworks** and **Multithreading** to optimize application performance.
- Cultivated unmatched proficiency in **JAVA Frameworks**, including **Hibernate, Spring IOC, MVC Framework**, and **Spring Boot**. Empowered projects with efficient development practices and upheld the highest coding standards.
- Proficient in utilizing Java frameworks to develop **REST APIs**.

Projects

● OTT APP (buzz):

- Developed a captivating movie application in React, showcasing expertise in front-end development.
- Implemented features like fetching movie data from APIs, creating dynamic UI components, and optimizing the user experience .
- Applied React's component-based architecture and state management principles for a robust and interactive movie browsing experience.
- Used Firebase Realtime Database for fetching the data.
- <https://buzz-topaz.vercel.app/>

● Employee Tracker :

- Developed a leave portal application using **Microsoft Power Platform**, which enables efficient monitoring and tracking of the employee database.
- Incorporating **Power Apps**, the portal streamlines the leave management process, providing a user-friendly and effective solution for managing employee leaves.

● Weather App (mausam):

- Developed a dynamic weather application and Implemented interactive features such as real-time weather data updates, location-based forecasts.
- Implemented efficient state management techniques to handle data and application logic, improving the performance and responsiveness of the app.

LANGUAGES

- English
- Kannada
- Hindi

Database Management :

- Possess extensive knowledge of working with databases, including **SQL** and **MySQL**, ensuring efficient data management, retrieval, and optimal performance.
- Extensive knowledge in crafting complex **SQL joins** for seamless data integration.
- Solid understanding of Relational Databases (RDBMS) and essential concepts like Constraints, Normalization, Tables, Grouping, Sub Queries, Functions, and more.
- **SharePoint** expert, skilled with database utilization.
- Skilled in harnessing **Node.js**, **Express.js** modules, **streams**, and **middleware's** for API development.

Mother India Forming Pvt. Ltd. : IT Engineer

01/10/2020-12/10/2022

- Proficient in utilizing **Power Automate** and developing custom **Power Apps** to streamline data analysis and enhance business processes.
- Developed two high-quality workflow solutions using **Microsoft power automate**.
- Analyzed and maintained 3 existing workflow automation solutions in Microsoft power automate
- Highly skilled in utilizing power automation tools effectively.
- Used Sophos Central **UTM tool** to track and analyze cyber threats and vulnerabilities across the organization.
- Used **VMware** Virtual machines to run various Operating Systems and applications.
- Maintained the security and integrity of the software and web application.
- Debugged and Troubleshoot code related to websites.
- Trained and Upgraded IT best practices across the organization.

CERTIFICATES

● **Java Full Stack Development - Jspiders**

-Full Stack JAVA Development, training in core JAVA, SQL, Web Technologies, Frameworks(Collection Framework, Hibernate, Spring, Springboot), Library(React JS).

● **React - The Complete Guide -Udemy**

- Successfully completed comprehensive React courses on Udemy, gaining in-depth knowledge and practical experience in React.js development.
